Dear Friend:

Does your business rely on tourists, sightseers or vacationers?
Do you need the profits from every available visitor dollar?

If "YES!" is your answer to either question, then souvenir pens
are more than a nicety, they're a necessity.

Selling souvenir pens, imprinted with your special full-color
graphic design, will make your visitors an even more powerful
force for your success. Each time one of your visitors receives
a compliment on their eye-catching pen, he or she will respond
by telling a great little story about their visit. A story
starring **SABINO HLTH FITNES RESORT INC.**

Many top resorts, attractions and leaders of the hospitality
industry currently sell our pens. Names like **Caesar's Palace,**
Norwegian Cruise Line, Hearst Castle, The New England Aquarium,
The San Diego Zoo, and Six Flags Theme Parks. Listen to these
comments from the **Statue of Liberty** gift & souvenir buyer:

"Our customers prefer the pens we purchase from National
Design. The bright, bold graphics custom-designed by ND
create the needed eye appeal to attract the customers. An
important factor is that they are made in the USA, which
our customers prefer. They are excellent souvenirs and
make great gifts from the Statue of Liberty." --
